SUPPLEMENTARY INFORMATION: On November 23, 2011 notice was published in the Federal Register (76 FR 72389) that a request for a permit to conduct research on humpback

whales had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit authorizes vessel approach for photo-identification and behavioral observation of humpback whales and incidental harassment of Hawaiian insular false killer whales (Pseudorca crassidens) in Maui County waters, Hawaii. The permit expires on June 1, 2017.

An environmental assessment (EA) was prepared analyzing the effects of the permitted activities on the human environment in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.). Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on September 17, 2012.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: September 20, 2012.
